

Straddle Extension Kit

Raise your productivity even higher

When obstacles on the ground prevent productivity in the air, choose the Straddle Extension Kit option by JLG. Available on AM Series personnel lifts at heights of 20 to 41 feet, the Straddle Extension Kit allows you to work over auditorium seat rows, machinery and even stairwells. The compact Straddle Extension Kit option can be loaded onto a standard truck bed with your AM Series personnel lift, providing ease of transport to and from jobsites. One more way JLG puts you in a powerful position.
